UNIFORM CRIME REPORTS

J. Edgar Hoover, Director, Bureau of Investigation

United States Department of Justice

Washington, D. C.

Volume 2

April, 1931

Number 4

Contents of the April Bulletin.

This issue of the bulletin contains the usual table showing the number of offenses known to the police as reported to the Bureau of Investigation by contributing police departments for the month of April.

The above tabulation is designated Table I and contains only those figures which are contributed by police departments of cities, towns, and villages, as distinguished from the returns submitted by county sheriffs, State police, United States marshals in the possessions, and officers in a similar status. These latter figures represent the returns received from county and other jurisdictions, including the possessions, and are published in Table I-A.

In addition to the above, tabulations are included showing the supplementary returns received since the last issue of the bulletin. The supplementary table is designated Table II. Table II-A of the bulletin contains figures which have been previously published but are corrected or revised in this edition.

The term "Offenses known to the police" is designed to include those crimes designated as Part I classes of the Uniform Classification occurring within the police jurisdiction, whether they become known to the police through reports of police officers, of citizens, of prosecuting or court officials, or otherwise. They are confined to the following group of seven classes of grave offenses, shown by experience to be those most generally and completely reported to the police: Felonious homicide, including (a) murder, nonnegligent manslaughter, and (b) manslaughter by negligence; rape; robbery; aggravated assault; burglary—breaking or entering; larceny— theft, including (a) thefts of \$50 and over and (b) thefts of under \$50; and auto theft. The figures contained herein include also the number of attempted crimes of the designated classes excepting attempted murders classed as aggravated assaults. In other words, an attempted burglary or robbery, for example, is reported in the monthly bulletin in the same manner as if the crime had been completed.

"Offenses known to the police" include, therefore, all of the above offenses, including attempts, which are reported by the police departments of contributing cities and not merely arrests or cleared cases.

Tables are also included to show the extent of the population area represented by contributing cities, exclusive of county and other returns. In addition, the number of current and supplementary returns received, by States, for 1931 are published separately, while the average daily number of offenses and the per cent of each offense class to the whole number reported, as reflected by the figures received, are also shown.

Increase in New Contributors Continues.

The number of cities which have at any time during the year 1931 contributed returns on offenses known to the police to the Bureau of Investigation reached 1,272 in April. The population represented by those cities is estimated to be 48,440,282. This, of course, is exclusive of returns received from county and other jurisdictions.

Police departments in 1,211 cities throughout the country forwarded to the Bureau of Investigation returns indicating the number of offenses of the designated classes reported to those police departments for the month of April. Returns for that month were also received from a number of counties in various States, State police in several jurisdictions, the First and Third Divisions of Alaska, Hawaii, and Porto Rico.

In the following table are shown the number and per cent of the cities and the number and per cent of the population of those cities of more than 10,000 inhabitants from which returns have been received for any one month of 1931. The figures are based on the 1930 census. In addition to those listed in the table there are 565 cities of an aggregate population of 3,122,732 which also have contributed returns during the current year. The population represented by the returns from counties and others is not included in this table.

Population groups	Total number of cities or towns	Cities filing returns		Total population	Population represented in returns	
		Number	Per cent		Number	Per cent
Total.....	982	707	72	58,340,077	45,317,550	77
A. Cities over 250,000.....	37	34	92	28,784,770	21,330,815	74
B. Cities 100,000 to 250,000.....	55	58	94	7,340,908	7,106,837	96
C. Cities 50,000 to 100,000.....	98	85	86	6,491,448	5,625,377	86
D. Cities 25,000 to 50,000.....	185	140	80	6,425,698	5,228,202	81
E. Cities 10,000 to 25,000.....	606	385	63	9,899,260	6,989,419	70

The above table does not include 565 cities of a population less than 10,000 aggregating a total of 3,122,732 from which returns were received for 1931.

Number of Regular Contributors Shows Notable Increase.

During the month of April returns were received from 1,211 cities which contributed the figures for that month. This number represents a very substantial increase over the number received for the previous month, when 1,140 cities contributed current returns. Thus it will be noted that the reporting area has increased with the gradual expansion which has marked the development of the national system of obtaining figures on offenses known or reported to the police based on the Uniform Classification of Offenses.

In the table which follows are shown the number of returns by States received and published currently during 1931.

Number of current returns published monthly, 1931

Supplementary Returns Requested.

Cities which have not contributed the returns for each month of the current year are requested to do so, so that figures on the number of offenses known will be available for the entire period. Supplementary returns, as distinguished from current, are those which have been received for previous months since the last issue of the bulletin.

In the table which follows the total number of returns received and published, including supplementaries for the current year, are shown.

Total published returns, including supplementaries, 1931

Percentage Table of Part I Offenses.

The monthly per cent of each offense class to the whole for the first four months of 1931 is shown in the following table. The figures are based on the total number of offenses reported by all contributing cities, exclusive of defective and incomplete returns.

Per cent of offenses known, 1931

Part I classes of the Uniform Classification	January	February	March	April
Total.....	100.0	100.0	100.0	100.0
Murder and nonnegligent manslaughter.....	.5	.4	.5	.4
Manslaughter by negligence.....	.3	.4	.4	.3
Rape.....	.4	.3	.4	.4
Robbery.....	6.7	6.7	5.7	4.9
Aggravated assault.....	3.0	3.2	3.4	3.9
Burglary—breaking or entering.....	21.2	22.0	21.3	20.6
Larceny—thrift:				
\$50 and over.....	8.3	7.9	7.9	7.2
Under \$50.....	34.8	35.2	36.2	36.9
Auto theft.....	24.8	23.9	24.2	25.5

Average Daily Offenses.

The daily averages of the number of offenses known of the designated classes, as reflected in the following table, are based upon the figures submitted by 1,136 cities which contributed both in March and April, exclusive of incomplete and patently defective returns. Due allowance was made for the variance in the number of days in each of the foregoing months.

Daily average, 1,136 miscellaneous cities

	Total	Felonious homicide		Rape	Robbery	Aggravated assault	Burglary—breaking or entering	Larceny—thrift		Auto theft
		Murder, non-negligent manslaughter	Manslaughter by negligence					\$50 and over	Under \$50	
March, 1931....	1,595.8	8.4	6.3	6.0	91.4	55.8	337.0	122.1	588.2	398.6
April, 1931.....	1,681.6	6.9	7.3	6.4	85.6	58.2	338.1	112.3	581.0	398.9

The next table of daily averages is based upon figures submitted by 75 cities each of a population of 100,000 or more which contributed returns both in March and April. Incomplete and defective returns are excluded.

Daily average, 75 cities, 100,000 population and over

	Total	Felonious homicide		Rape	Robbery	Aggravated assault	Burglary—breaking or entering	Larceny—thrift		Auto theft
		Murder nonnegligent manslaughter	Manslaughter by negligence					\$50 and over	Under \$50	
March, 1931.....	998.4	5.0	4.9	3.1	61.2	27.9	210.0	72.8	354.7	398.6
April, 1931.....	956.6	4.2	5.2	3.0	57.6	27.6	193.2	67.5	342.2	398.9

Contributors are reminded that under the above heading all unlawful killings which are not the result of negligence should be recorded in the monthly return. The term "nonnegligent manslaughter" should not be interpreted to mean manslaughter which is caused by accidental though nonnegligent means, as the group includes only unlawful killings for which the offenders are liable to prosecution. There should be excluded from this classification in the monthly return all homicides which are attributable to negligence or accidental causes. It will be seen, therefore, that the classification murder and nonnegligent manslaughter is limited to offenses of murder and manslaughter not caused by negligence.
